Education:

August 2022 – October 2022   **Web Development Bootcamp**
Tech School: Ironhack – Online Bootcamp | São Paulo
Full time – 400 hours.

Projects:

1- JavaScript Game

https://larissambn.github.io/Game

Harry Potter Memory Game and Quiz. With mostly Javascrit and a little bit of DOM. I wanted to make a game that anyone could play.

2- React Website

https://tsw.netlify.app

Made with Javascript and React. It is a website with Information about security of countries for women to travel. The idea was to make a space of comments where women could share their travel experiences.

3- CRUD App

https://tranquili-tea.netlify.app

E-commerce of Tea, a website made with Javascript, React and Express - Node.js. The idea was of an website where the user has a profile, can post, comment, and buy teas. There are Log-in and Sign-up pages, as well as pages only available for users.
